Welcome To Sale 69

Welcome to our first sale for 2009, and a cracking sale it is indeed! Thanks as usual to all the vendors for providing not only a diverse and interesting selection, but also a large number of highly desirable and rare items for this sale. For future vendors - Please note: the cut off dates for the next sale will be in early/mid July, and as we already have a large number of items penciled in (including 2 superb collections of Banknotes), places will once again be limited. The next sale, Sale 70, will be sometime in September, and is already shaping up to be another beauty!

Some Sale 69 Auction Highlights and more...

One excessively rare item really worth close attention is the Type 10 Kookaburra Penny of 1920. This famous type is often dubbed the "Crowned Head" type, as it is the only coin amongst both the Halfpennies and Pennies of the Kookaburra series to feature King George V wearing a crown. This portrait type is similar to the ones used in our issued pre decimal currency and also in other colonial countries of the period. This very rare issue has not been sold at auction for many years, and this particular coin has the pedigree of being Ex. the Le Seouf (the former Melbourne Mint Master's personal) collection, adding to its considerable desirability. This superb example should top the \$300,000 mark, with several collectors already keen to add this coin to help complete their type collections.

Also on offer is an amazing consecutive trio of 1 Pound Star notes 1942 Armitage-McFarlane in UNC condition. These amazing notes turned up in the early 1980's, and have never been offered at auction before. Not only are these notes the key Starnotes of the whole series (along with the 10 Shillings, of which these rate similarly in high grade), but as a trio they are truly unique, and as such, may be worth more than a 50% premium for this factor. At the current catalogue value of \$160,000 per note, and considering the extra value added for being a trio, the estimate of \$450,000 could well prove to be very conservative come auction day.

Other items sure to attract significant interest include a 20 Pound 1913 Collins - Allen, a fresh note that, unbelievably, was actually part of a consecutive pair. This note is graded gEF, and is considered the equal finest known, and estimated at \$260,000. Also there is a Rainbow Pound 1914 and at gF/aVF an attractive example and rare in this grade, which is estimated at \$65,000. Also an UNC 10 Shillings 1923 Miller-Collins, a nearly UNC 5 Pound Kell-Heathershaw, a trio of Hay Internment Camp notes in high grade, as well as a 10 Pound 1918 Cerutti-Collins in gVF. Other highlights include a Red Serial 1 Pound 1914, a number of Specimen notes as well as an amazing line up of very rare issued and specimen Pre Federation Banknotes.

A fantastic selection of Coin Rarities includes probably the finest known 1922/1 Overdate Threepence. Sold originally by IAG in 2002, this superb example is graded aEF/gEF. There is also two other Kookaburra pennies, a Type 11 and a Type 12, two 1813 Dumps, a rare Taylor Sixpence in Silver c1855, and superior examples of many key date coins including a gEF 1923 Halfpenny, a Ch.UNC 1925 Penny and an aVF 1930 Penny. The 1925 Penny is worth a special mention, as this would be the finest example offered in many years. Also there is a superb selection of Commonwealth Silver and Copper including many gem pieces, some nice Proof Coins, and a selection of Australian Gold highlighted by an aUNC 1860/5 overdate Half Sovereign, also considered to be the finest known. Other items of interest include a small but interesting selection of Australian Medals, World, GB, Ancient Coins and more.

Other Points Of Interest- Once again, those that (wisely) listened to what I said a year ago about the share market meltdown probably did well to avoid the massive losses that have occurred, and hopefully they have future proofed their super funds and personal investments by putting their hard earned money into high quality Numismatic items that will have potential for future growth. Of further significant interest is that in the last four months, in Australia and right around the World, there have been record breaking Numismatic sales held. Last year we sold two items for over \$1,000,000 each, including the World Record price for any Australian Numismatic item, but we were delighted to hear that several leading Australian Numismatic firms had also recently achieved record prices. The Rare Coin Company achieved a new record price with the sale of a 1000 Pound note for \$1,350,000, whilst Coinworks just announced the amazing result of \$500,000 for a Proof 1923 Halfpenny, well above the current catalogue price!

Overseas, a number of recent sales held from October to December, and amongst the gloom of the Global Financial Crisis, broke new pricing ground. In Munich a sale realised 7.9 million Euros (over \$15,000,000), another in Dallas Texas realised \$US13 million, whilst in London yet another sale achieved a world record price of £1,782,500 (\$3,900,000) for a Russian Twenty Rouble Piece. A sale held in Tokyo comprising only 100 lots realised an incredible 630,000,000 Yen, (that's over \$10,000,000), with a world record price for an 1847 Gothic Crown fetching over \$790,000. In Switzerland another sale broke several records, with an Athens Gold Stater selling for 950,000 CHF (over \$1,200,000), and a Sestertius of Hadrian achieved a record price of 2,000,000 CHF (over \$2,500,000)! And this only in the last 4 months! It is also important to understand that for every new record breaking rarity sold, there is a positive spin-off created which in turn filters down throughout other levels of the market. As high profile rarities diminish, the focus gradually shifts to the next in rank.

I think the message here is clear; in times of economic turmoil, the Numismatic market has held up. Gold, of course, has always been a safe haven in times of trouble, but evidence shows that even from the times of the Great Depression, the Numismatic market has more than held its own. More than ever, investors recognise the need for diversification and are seeking secure alternatives that are affected as little as possible by the stock and property markets.

Please Note: We will be accepting items for the next sale, Sale 70 (to be held in September 2009), from now until early/mid July 2009. Please contact us Now about any consignments you want to include in this sale to ensure that you don't miss out.

233 1942 Armitage-McFarlane (R 30bs). An amazing original consecutive trio. Originally discovered in the early 80's by Laurie Nugent, this lot has never been offered for sale at auction before. This note is an underrated note, as in high grade, this is at least as rare as the 10 Shillings (R 13s). There is only one other note I have seen in equivalent grade to this trio. The three notes catalogue at \$160,000 each, or \$480,000, and it would not be unreasonable to expect at least a 50% premium for the rarity of this note as a trio. An exceptional lot, and probably the single highest point of the whole starnote series.

**324 Kookaburra Penny 1920. Type 10. Excessively rare "Crowned Head" type. With probably 6-8 examples known, this is the key coin in the Penny series, and is unique in the crowned portrait of George V. A superb example, with light salmon toning, and beautiful fields. The first time this coin has been offered for auction for many years. Ex Le Soeuf collection (the former Melbourne Mint Master), and the Osborne Collection, lot 1424 July 1993. One of the most important Australian coins offered in many years.

World Banknotes

- 461 Fanning Island Plantations Ltd One Pound Australian Currency / USA One Dollar 'Short Snorter' 1935 overprint HAWAII. A 'short snorter' was a member of the military who had flown across the equator, & the notes were evidence of this, & formed the basis of a drinking game. The currency of other nations & territories were often added in chains that could reach over 6 feet in length. This note has approx. 24 signatures. Fanning Island's Plantation Manager ordered 3,000 one pound notes to overcome a shortage at the beginning of WWII. After the war the remaining unissued notes were cut in half & used as theatre tickets. It is thought that only 12 complete notes still exist, and are therefore very rare. *FINE*

Medals & Medallions

479 Pair of Boer War Medals, Queens South Africa with 5 bars and Kings South Africa with 2 bars, both named to Lieut. W R Bell Victorian Mounted Rifles. William Robert Bell was an Australian official in the British Solomon Islands Protectorate, who served as the District Officer of Malaita from 1915 until 1927 when he was killed while collecting a head tax from the Kwaio of central Malaita. His death set off the Malaitia Massacre, in which several other colonial officials were killed in a Kwaio attack, which led to a punitive expedition in which many Kwaio were killed or incarcerated in retaliation. Also includes original photo on board of Bell in The Crown Studios envelope, & original photo of Captain Bell in DSO uniform with Capt O'Reilly & Lt Maygar.

\$8000-8500

Notes

Thank You For Your Participation

Room bidders please wait to collect lots until after the sale has finished. We will endeavor to get you underway as quickly as possible. Postal bidders please allow us until Tuesday the 10th to sort and finalise all postal sales and publish prices realised.

Prices Realised will be posted on the website by Tuesday 10th of March, once the large number of postal bids has been fully finalised. All auction catalogue subscribers will have the prices realised posted on the 10th, and should receive them later in the week. Passed in lots will be available for sale until Friday 13th March. Any remaining unsold lots after this date will then be withdrawn from sale.

TERMS AND CONDITIONS OF SALE

Please read the following "Terms of Sale" carefully. These terms are applicable to all floor bidders and mail bidders in this auction. Your submission of bids in this Auction constitutes your acceptance of these "Terms of Sale".

1. This is a public auction sale, NOT an approval sale. At the fall of the gavel or auctioneer's call of "Sold", all sales are final. By bidding in this auction, the bidder personally guarantees payment. The auctioneer has final discretion in all matters. In case of dispute, the lot(s) in question may be resold. Lots will be sold in their numerical sequence unless the auctioneer directs otherwise.

2. Payments must be made in Full and lots must be removed the day of the sale or by 5p.m. the next day. Absolutely No lots will be released until payment in full has been made. Payment may be made in Cash, by Personal Cheques (with proper identification, at their discretion of International Auction Galleries), or by Major Credit Cards. Successful postal bidders will be notified by mail.

3. A 15% buyer's premium will be added to the knock down price of each lot (includes GST).

All Credit Card payments by Amex and Diners will incur a further 3% surcharge.

4. Unless otherwise specifically stated by the auctioneer, each new bid shall be raised above the previous bid by such amount as is determined by the auctioneer during the course of the auction, and no party shall be allowed to retract his or her bid after acknowledgment by the auctioneer.

5. The auctioneer reserves the right to refuse any bid and to withdraw any goods from sale at any time, or to disclose any reserves or vendor information, without having to state any reason.

6. At the fall of the hammer, (if required by the Auctioneer), the purchaser shall give his or her full name and address, and pay 25% of the purchase price deposit. In default, the lot(s) purchased may, at the auctioneer's discretion, immediately be reoffered and resold. All lots sold will remain the property of the owner/vendor until cleared payment is made in full. Only then will the title of ownership of the lots pass to the purchaser, irrespective of any terms or deferment of payment due.

7. Except as otherwise provided by state or federal law, no condition or warranty is given or implied by the auctioneer in respect of any lot offered. As all lots are given for inspection prior to the commencement of the sale, it shall be presumed that the goods have been inspected and that the purchaser accepts the goods bought with all faults, if any, as described. All lots are guaranteed genuine, except where so described; however if a lot sold is found to be a deliberate fake or forgery, the pur-

chaser may return it, and receive upon confirmation of the same, a full refund.

8. The auctioneer shall not be liable for any description or mis-description given to the goods for sale. Any statement as to the quantity of goods is approximate only and is as represented to the auctioneer. The auctioneer gives no warranty that the quantities as stated are correct.

9. If any purchaser fails to comply with any of these conditions or if any cheque given on account of the purchase price of any goods is dishonoured, any monies which the purchaser has paid to the auctioneer on account of the purchase shall be forfeited absolutely to the vendor. The vendor or the auctioneer is at liberty to re-sell the lot in any manner and upon such terms and conditions as they may deem proper and to sue the purchaser for damages. All losses and expenses incurred by the vendor or the auctioneer and all damages which the vendor or the auctioneer may sustain resulting from any re-sale, shall be recovered from the purchaser as liquidated damages. Without limiting the generality of the foregoing the auctioneer in the event of such resale is entitled to:

- a) The amount of any commission lost as a result of the purchaser not proceeding with the purchase
- b) The cost of advertising in respect of any such re-sale.

A service charge of 2% per month (Or part thereof) will be added to all overdue accounts (30 days after the date of Auction is then deemed to be in the overdue period for unpaid accounts).

10. Estimates are given only as a guide, and not given as starting points for bidding: lots may sell for a price greater than or less than these estimates. Bidding will start at an increment above the lowest postal bid received, or at the Auctioneer's sole discretion. All prices are in Australian Dollars.

11. No lots purchased by a floor bidder may be returned, including those lots where the bidder is acting as agent for another, or to mail bidders who have examined the lot(s). There are no returns or refunds except for reason of lack of authenticity or genuine mistake. Late remittance constitutes just cause for revocation of all return privileges.

In no event may any lot(s) be returned after (21) days from the date of the auction. All sales are then final.
