# Welcome To Sale 70

Welcome to our second sale for 2009, and it is another cracking sale once again! Thanks again to all the vendors for providing a diverse and interesting selection, and a large number of highly desirable and rare items for this sale. Once again many vendors have missed out due to being too slow off the mark. Please note: the cut off dates for the next sale will be in early/mid January, but once again it is still really first in, best dressed as usual. Anyone who has been involved in the production of our sales can tell you just what a juggling act it is to bring it all together, and to keep the integrity of the sale as we want it, and to still try to look after every vendor also. The next sale, Sale 71, will be held in March 2010, and I can assure you, will have some amazing items on offer yet again. How do I already know? Well, the cataloguing has already started....

## Some Sale 70 Auction Highlights and more...

In its own separate catalogue is "The Blue Collection". It is a labour of love spanning over 15 years of collecting, comprising only Australian Pre Decimal 5 Pound Banknotes. The interesting thing about this collection is that it is complete, with every known type, and is the only full set ever offered. Most of the key notes are either the finest known, or amongst the finest. When we spoke to the vendor, he intimated that he liked the colour blue, thus his decision to collect 5 Pounds. Hence, we have decided to name this collection "The Blue Collection". This superb collection includes key notes such as the Non Mosaic Type (R 35), an example that is rarely sighted, and hasn't been publicly offered in any grade for a number of years. The finest of 2 known Collins-Allen (R 36a) blue serial types is also included for sale. This extremely rare note is one of the keys to the Pre Decimal series, and as such is sure to be keenly contested. A number of other key issues are all in high grade, including such rare issues as the (R 36b) and (R 37a), with the later issues in UNC. Total estimates for this single important collection alone exceed \$1 Million.

The main catalogue includes a recently discovered hoard of Early Colonial Pre Federation Banknotes. Included in this is the unique bogus issue of the "Fictional" Austilin Bank, as well as several unique unrecorded issues. These include an issued 1 Pound Australian Joint Stock Bank 1858 on Armidale, and an issued 1 Pound Bank NSW 1869 on Tamworth. Other banknote highlights of note include a rare consecutive trio of Ten Shillings 1933 Riddle-Sheehan in UNC, conservatively estimated at \$110,000 for this unique lot. One of two known 10 Pound Specimens 1954 Coombs-Wilson is another highlight at \$115,000, whilst a Unique 7 digit "Million" decimal Starnote with serials ZAD 100 000\* is sure to create a stir, as this is only the second such note known, and the only decimal example. It is expected to exceed its \$12,000 estimate. Other highlights include a run of UNC Decimal and Pre Decimal Starnotes, some great Misprints, and a number of rare Specimen notes.

A number of superb Coin Rarities includes two rare gold Proof coins: an 1887s gold 2 Pound, the finest of only 4 known, estimated at \$130,000, and a superb 1885M Shield Sovereign, expected to fetch over \$110,000. Other key coins include a Dump 1813 aEF/EF estimated at \$100,000, whilst a nice Holey Dollar 1806 has an estimate of \$140,000. An attractive Kookaburra Penny Type 11 is expected to fetch \$65,000, and there are also 3 Adelaide Pounds 1852 Type II on offer, as well as a number of rare Proof issues including a full set of QE II Proofs. The Pre Decimal section includes many superior examples of Commonwealth coins, including a great run of high grade Shillings, highlighted by a 1915H coin that is PCGS graded at MS 64, and estimated at \$36,000. Other key date Coins include an EF 1923 Halfpenny estimated at \$11,000, an aUNC 1925 Penny at \$6,000, and an aVF 1930 Penny for \$30,000. There are also many other GEM grade coins in gold, silver and copper, some fantastic

mis-struck coins, a superb set of Internment Camp Tokens in high grade. Rare British and World coins also add to the fine selection on offer.

Other Points Of Interest- Recent Market activity has shown the amazing strength in the Coin side of things, and not just for rare Proofs and Specimens, but right through the spectrum of grade and range. Even British and World coins have shown a spike in both prices and demand, and recent sales have seen mis struck coins realise double and triple what they previously have! Interesting times ahead for the coin market, but again, this is something we saw starting 2 years ago for those that were paying attention. I still believe also that Pre Decimal Proofs, especially early issues like George V, have a way to go yet. One factor here that doesn't often get mentioned is that like all other coins, not all Proofs are the same. Many badly stored or slightly marked coins exist, and, like anything else, are not the same as a high end perfect example, say a PR 66 or PR 67. As such, as the market matures, this fact will be recognized, and prices for superior coins may well double or triple compared to, say, less perfect examples. Just something to keep an eye on...

Recent demand and sales we have had seem to indicate our market is well and truly on the way back, if not already there, and the real lack of quality stock around coupled with rising inflation will probably see large gains in the numismatic market over the next few years. Now is a good time for those with the ability to buy premium pieces, before they become unattainable. For anyone out there sitting on a reasonable amount of Superannuation, they might also consider running their own self managed fund. Recent Superfund losses have shown this makes sound financial sense to manage your own funds, as opposed to letting someone else do it for you. Really, it isn't that hard, and can be fairly easily done. Those that have done so, and easily rode out this last economic crisis will tell you it is the way to go.

The new Renniks guide has some strong price growth in it, even if the Pre Decimal Proof section didn't get updated due to technical problems. What will really please a lot of collectors is the updating of the Pre Federation section, which now means the prices actually reflect the market, and this will help the many novices starting out (myself included!) in buying in this tricky but very rewarding area, as well as something for long time collectors. Colour pictures and interesting coverage of pretty much all numismatic areas make this book a must buy for everyone.

Please Note: We will be accepting items for the next sale, Sale 71 (to be held in March 2010), from now until early/mid January 2010. Please contact us Now about any consignments you want to include in this sale to ensure that you don't miss out.

# STRANGER THAN FICTION!

## Paul Hannaford tells how an exciting new “hoard” has uncovered an amazing piece of colonial history!

ONE of the most interesting things about running an auction house is the thrill of discovery, as you just never know exactly what will cross your desk next!

Used to the usual range of rarities we uncover, I was nevertheless shocked to see, in a collection of other unique and very rare Pre Federation banknotes we had just consigned, that one of them was an issued note from 1837! “This would have to be one of our very first issued notes”, was my immediate thought, something unique and very rare indeed. Upon further inspection the next thing that stood out was the name of the bank it was issued on – *The Austilin Bank*. Could this really be an early issued note on a bank never before recorded? What an amazing find this collection has turned out to be! Surely this one note alone was worth serious money, perhaps even in the realms of hundreds of thousands of dollars...

The story of this note turned out to be, in all respects, both a little less and a little more than what I had previously thought. Certainly it justifies the saying that “truth is stranger than fiction”.

Thomas Saulsby Wright, alias “Tommy the Banker”, late of Parramatta, was indicted for feloniously having in his possession, without lawful excuse, certain forged notes

purporting to be issued on the “*Austilin Bank*”, and knowing them to be counterfeit. A search warrant had been issued for his premises, and to the constable’s surprise, he turned up bundles of banknotes of various denominations from £1 to £20, in large quantities, as well as several plates for printing, which amounted to around £8,000 of forged currency!

Later, when asked what he was doing in possession of so much currency, and was it his intention to defraud using this currency, a reply to the order of “*For the opening up of a Bank*” brought much laughter to the courtroom. He had, according to him, apparently been contacted to produce notes for a company in Parramatta, but had later been swindled and robbed, and felt he had as much right as any other “Gentleman” to establish a Bank using the notes in his possession. Obviously no one believed this story. His “not guilty plea” was not upheld, the jury finding him guilty without even leaving the box. Wright was sentenced in 1839 to “14 years transportation to a penal colony”, a similar sentence to the one that landed him in Australia in the first place!

The note in our possession does in fact bear the signature “Thos. Saulsby”, and is of similar design to many issued genuine

notes of the period, notably the Bank of Australia.

One can only wonder as to his intentions, but the naming of the fraudulent “Bank” as the *Austilin Bank*, does seem to be a deliberate tongue in cheek piece of wordplay, and you could almost imagine his chuckles over a bank whose name sounded a bit like it had “Steal’n” in it.

Again, amazingly, there is a twist to the ending of this story. This former “banker of 62 years”, Thomas Saulsby Wright, died in prison on Norfolk Island at the age of 105, after only a few short years of his sentence had been served and his *being found guilty at the age of 102!*

So how much is an important and possibly unique piece of history such as this actually worth? Probably not in the realms of the above-mentioned six figures, but certainly somewhere in the vicinity of \$20,000. The great thing with an auction is that we will all get to see how the final piece in this interesting drama plays out!

(This note, along with the other accompanying unique “hoard” notes, will be auctioned by International Auction Galleries in their forthcoming sale, Sale 70, in September 2009.)

A relatively recent discovery, this is the only recorded example, with one other known, and is illustrated in Mick Vort Ronalds "Australian Banknote Pedigrees" book. Some paper thinning and minute pinholes/separations, but with good crisp original paper and strong colour. Overall, looks better than we have graded it. A truly exceptional note and of the highest rarity. *aFINE* \$85000-90000

## The Blue Collection

- 170 1913 Collins-Allen (R 35). Non Mosaic Reverse type. One of the Key banknotes of the whole Pre Decimal series. The note features a unique Reverse design, which was subsequently later changed, and the "mosaic" of 5's was added in to prevent forgery of the issue. 10 genuine issued notes are recorded, this the first example sold publicly for many years. The note is well circulated, with some surface dirt, and a few tiny pin holes, but is a whole example with good appeal and is conservatively graded. Last sold in 1999 as *gFINE*, which according to record makes it the equal 3rd finest known. A superb rarity and highly desirable. *VG/aFINE* \$80000-85000

- 172 1914 Collins-Allen (R 36b). Extremely rare in this grade, one of the finest known and a very under rated note. 17 examples recorded, this example probably the equal 4th or 5th finest. Good original paper and strong colour, and with great eye appeal. Very rare. *VF* \$40000-45000

- 173 1914 Collins-Allen (R 36c). One of the finest known, being in the top 2 or 3 examples of the issue, and extremely rare in this high grade. Good colour and nearly completely flat paper, with no real traces of folding. A new find, being a previously unrecorded note? A superb type note for the whole Collins-Allen issue. Very rare, especially this nice. *EF* \$80000-85000

174 1918 Cerutti-Collins (R 37a). The finest known of this issue, and rarely seen in any grade, with only 10 examples recorded. Exceptional fresh paper and lovely colour, with only light traces of folding and handling. Ex the Roy Brook collection (lot 479), and the Mick Vort Ronald collection (lot 82). Far, far rarer than the common (R 37b) issue, and a superb note. Extremely rare and a highly important banknote. *EF*

\$110000-120000

175 1918 Cerutti-Collins (R 37b). Very rare this grade, as many issues of this type are in low grade. Lovely bold colour, and some folds with good paper. A great type note, and easily in the top ten notes for this issue. Rare. *aEF*

\$38000-40000

176 1924 Kell-Collins (R 38a). Black signature type. One of the finest known. Crisp paper, with some minor edge folding and a trace of a centre fold. Rare. *gEF/aUNC*

178 1927 Kell-Heathershaw (R 39). Note Issue Department type. Crisp and fully fresh paper, a superb original note in as close to perfect condition as I have seen. The finest known example of this rare note. Originally sold by us in sale 66 for \$105,000, where it was previously unrecorded before this. Extremely rare, especially in this superb grade. *UNC*

\$105000-110000

179 1927 Kell-Heathershaw (R 40). Commonwealth Bank type. Crisp, fresh and original, one of the finest known. Recorded here for posterity. Sold by private treaty. *aU/UNC*

SOLD

180 1928 Riddle-Heathershaw (R 41). Note Issue Department type. Extremely rare issue that is rarely offered, especially in this superior grade. Nine examples recorded, with this previously unrecorded note making it ten now. Good fresh paper, a little crinkled with numerous bends and folds, but without too much real heavy wear, and with good colour. Appears to be the rare “white back” example as referred to in the Nicholson Collection catalogue. Probably in the top 5 known. Extremely rare. *gVF*

## Notes

# Terms And Conditions of Sale

*Please read the following "Terms of Sale" carefully. These terms are applicable to all floor bidders and mail bidders in this auction. Your submission of bids in this Auction constitutes your acceptance of these "Terms of Sale".*

**1.** This is a public auction sale, NOT an approval sale. At the fall of the gavel or auctioneer's call of "Sold", all sales are final. By bidding in this auction, the bidder personally guarantees all payments. The auctioneer has final discretion in all matters. In case of dispute, the lot(s) in question may be resold. Lots will be sold in their numerical sequence unless the auctioneer directs otherwise.

**2.** Payments must be made in full and lots must be removed the day of the sale or by 5p.m. the next day. Absolutely No lots will be released until payment in full has been made. Payment may be made in Cash, by Personal Cheques (with proper identification, at their discretion of International Auction Galleries), or by Bank Transfer or Major Credit Cards as stipulated. Successful postal bidders will be notified by mail via an auction receipt.

**3.** A 16.5% buyer's premium will be added to the knock down price of each lot (includes GST). **All Credit Card payments by Amex will incur a 3% surcharge.**

**4.** Unless otherwise specifically stated by the auctioneer, each new bid shall be raised above the previous bid by such amount as is determined by the auctioneer during the course of the auction, and no party shall be allowed to retract his or her bid after acknowledgment by the auctioneer.

**5.** The auctioneer reserves the right to refuse any bid and to withdraw any goods from sale at any time, or to disclose any reserves or vendor information, without having to state any reason.

**6.** At the fall of the hammer, (if required by the Auctioneer), the purchaser shall give his or her full name and address, and pay 25% of the purchase price deposit. In default, the lot(s) purchased may, at the auctioneer's discretion, immediately be reoffered and resold. All lots sold will remain the property of the owner/vendor until cleared payment is made in full. Only then will the title of ownership of the lots pass to the purchaser, irrespective of any terms or deferment of payment due.

**7.** Except as otherwise provided by state or federal law, no condition or warranty is given or implied by the auctioneer in respect of any lot offered. As all lots are given for inspection prior to the commencement of the sale, it shall be presumed that the goods have been inspected and that the purchaser accepts the goods bought with all faults, if any, as described. All lots are guaranteed genuine, except where so described; however if a lot sold is found to be a deliberate fake or forgery, the purchaser may return it, and receive upon confirmation of the same, a full refund.

**8.** The auctioneer shall not be liable for any description or mis-description given to the goods for sale. Any state-

ment as to the quantity of goods is approximate only and is as represented to the auctioneer. The auctioneer gives no warranty that the quantities as stated are correct.

**9.** If any purchaser fails to comply with any of these conditions or if any cheque given on account of the purchase price of any goods is dishonored, any monies which the purchaser has paid to the auctioneer on account of the purchase shall be forfeited absolutely to the vendor. The vendor or the auctioneer is at liberty to re-sell the lot in any manner and upon such terms and conditions as they may deem proper and to sue the purchaser for damages. All losses and expenses incurred by the vendor or the auctioneer and all damages which the vendor or the auctioneer may sustain resulting from any re-sale, shall be recovered from the purchaser as liquidated damages. Without limiting the generality of the foregoing the auctioneer in the event of such resale is entitled to:

**a)** The amount of any commission lost as a result of the purchaser not proceeding with the purchase

**b)** The cost of advertising and other general expenses in respect to any such re-sale.

**c)** Any difference in price from the initial sale to the price received in the re sale of the items(s).

**A service charge of 2% per month (Or part thereof) will be added to all overdue accounts (30 days after the date of Auction is then deemed to be in the overdue period for unpaid accounts).**

**10.** Estimates are given only as a guide, and not given as starting points for bidding: lots may sell for a price greater than or less than these estimates. Bidding will start at an increment above the lowest postal bid received, or at the Auctioneers sole discretion. All prices are in Australian Dollars.

**11.** No lots purchased by a floor bidder may be returned, including those lots where the bidder is acting as agent for another, or to mail bidders who have examined the lot(s). These are no returns or refunds except for reason of lack of authenticity or genuine mistake. Late remittance constitutes just cause for revocation of all return privileges.

In the event that a bidder is acting as an agent for Another, and that agency has not been disclosed to the auctioneer in writing 24 hours before the Sale date, then the bidder is deemed by the auctioneer to be the final buyer in all respects, and is fully responsible for all payments, fees and charges.

**In no event may any lot(s) be returned after (21) days from the date of the auction. All sales are then final.**
