

IAG's Spectacular 30th Anniversary Auction

IAG's Auction Sale Number 82, to be held on the 12th of September, is a worthy auction to commemorate their 30 years of industry shaping Numismatic sales. "We have gone back to the future with some of our pricing in this sale reminding me of prices from when we started back in 1985" IAG's Managing Director Paul Hannaford said half seriously. "Prices on much of the key material are down at present, but this in turn provides some fantastic buying opportunities. Buyers will be able to snap up key rarities from the many excellent examples we have in this sale, at an absolute fraction of their former prices".

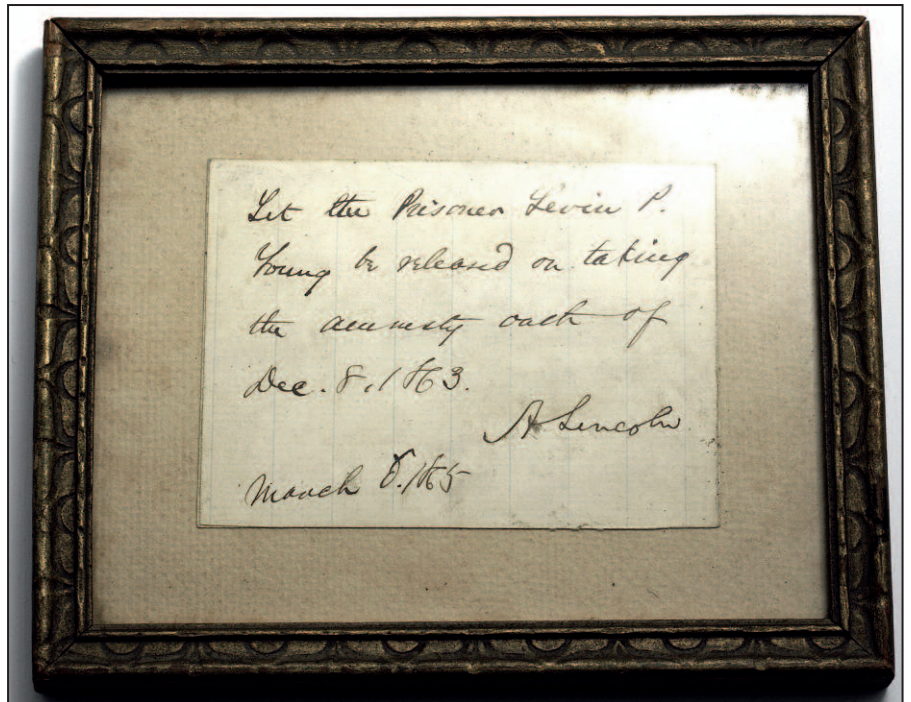

Banknote highlights include two high denomination issues: a 50 and 100 Pound Cerutti-Collins, with the 100 Pound in particular being a really superb, crisp note, estimated at \$38,000 and \$110,000 respectively.
