Welcome To IAGs Signature Sale 103

Welcome to IAG's first Signature auction for 2026. Once again we have put together a fantastic selection of rare, interesting, high grade and collectable lots. Let me first thank the over 100 vendors who have contributed everything from a single lot to the several estates with hundreds of items for such a varied selection of genuine vendor material. No doubt it is our unique commission structure which sees all of our vendors pay No Sellers Commission that attracts such an eclectic and far ranging assortment from all over the world.

The start to this year has once again been hectic, with so much going on in the numismatic world already, not to mention the crazy roller coaster ride bullion has been on (and looks far from being over). The crazy increases - particularly in silver - will have a far-ranging impact on the numismatic market, we believe in a positive way. As the metal value of many coins begins to outstrip the general perceived numismatic value, then a re-balancing of value will be required, and how this plays out over the coming months and years will be fascinating. Safe to say that we have a significant selection of bullion in this sale that will be of intense interest, with everything from .9999 silver and gold, to large quantities of silver and bulk coinage. With the price fluctuations, our job hasn't been easy, but the opportunity's there to take advantage of the ample supply while it's there.

One thing we have always been about at IAG is encouraging collecting. We love to connect old collections to new buyers, especially when the joy and passion that has gone into them over many years is clearly apparent. Such is the case with Stewart Burton's aptly named "Esoteric and Eclectic" Note collection; a legacy of love formed over 50+ years. It's obvious that it belongs to a true collector -someone passionately intent on completing a series as opposed, perhaps, to investing or buying random things that take their fancy. The notes on offer here are the remaining parts of what was a formidable collection in its entirety. The Pre Federation and high-denomination notes having been sold in Nobles in 2004, as Burton puts it "the irony of swapping old money for new money to buy a house was not lost on me" and the NPA portion was sold to the late Trevor Wilkins. The remaining body offered here is an interesting selection with some wonderful highlights, and the separate e-catalogue can be downloaded from the IAG website.

We have always been about being at the forefront as far as innovation in what we do is concerned, so much so that we are often copied in the ways that have made us uniquely successful. Imitation, as they say, is the sincerest form of flattery! Being IAG though, we never stand still, and have some plans in the works for some exciting future expansions, so keep your eyes out for some exciting news in the coming months.

On a personal note, Thank You to those that have enquired about my recent health issues; it has been a rough few months but I am now well on the way to making a full recovery, and safe to say, the girls are having a hard time keeping me out of the office!

Some Sale 103 Auction Highlights and more...

The auction will be held over three evening sessions, and I must say- there are so many great lots across the sale, it's hard to narrow it down to just a few!

Some truly special coin rarities spearhead this Sale, from the elusive Type 10 and unique Type 11 Kookaburra Patterns to the iconic 1930 penny and the historic Holey Dollar, we are truly blessed to offer such an eclectic and covetable array of rarities; the Type 10 Kookaburra being the excessively rare and key Crowned Head type, of which only a handful of examples are known and almost never come up for auction, is graded SP 63 with an estimate of \$120,000, and the Type 11D heavier Pattern piece, which has been officially identified and slabbed SP 64 by PCGS and is quite possibly the only one known, has an estimate of \$24,000. The superior 1930 penny in EF 40 is very rare in this higher grade, being among the top 25-30 examples and sure to attract interest at the estimated \$37,000.

Along with these key rarities is a truly fascinating 1966 Pattern Proof set. A new discovery, this set features six polished Decimal proofs in the style of the pre decimal sets rather than the polished and frosted sets that were officially released. There are scant records available from the mint about the changeover process, so this set serves as clear evidence of part of the trial process during this period, with each coin very possibly being unique. This important piece of Australian Numismatic history has a pre-sale estimate of \$23,000.

Not one but TWO Emergency Rainbow Pounds headline the banknotes on offer; a Last Prefix B type in almost VF with an estimate of \$28,000, and Burton's First Prefix B type in Fine at \$12,000, as well as a true collectors fragment of the rare Emergency Issue (R 19). A variety of superscribed issues are presented, including the only known National Bank 10 Pound on Perth and a 5 Pound on Melbourne, a very rare Bank of Adelaide 1 Pound on Adelaide and a Bank of Victoria 1 Pound. There are also some Pre Federation specimens that present fantastic value for their rarity, along with a Type I 10 Pound specimen ex the Vort-Ronald Collection and a late-discovered Type 4a Decimal Specimen set that is only the second of its type known and a presented Type 4 100 dollar 2-note folder.

Other Banknotes of note include five Hay Internment Camp notes along with an almost full contingent of decimal stars, the highlight of which is a Phillips-Randall 5 dollar ZND Last prefix, the equal finest of only four examples known and THREE million serial pre decimal Coombs-Wilson notes, including the rare 5 pound of which there are only 5 known to exist. The 10 Pound Riddle-Heathershaw (R 55) pair would be a trophy acquisition for a quality pre decimal collection. The banknotes are rounded out by some trial notes, a range of scarce First and Last prefix issues, some interesting Test note sets and other pre decimal and decimal issues.

Some other key coin highlights include a very rare 1922/1 Overdate Threepence in VF grade, an interesting 1966 Proof set from the same provenance as the Trial set; this one with a specimen frosted round 50 Cent and housed in a Perspex case, along with some error mint and proof sets, a large number of pre decimal proof coins including a rare 1935 penny, 1938 and 1946 halfpenny, rare pre decimal issues include the equal highest graded 1920 Plain BN Penny, a high grade 1923 Halfpenny along with eight others and numerous high grade and PCGS issues to Gem Unc.

The B.M.C. Florin Collection on offer once held the prestigious accolade of being the second-finest Australian Florin collection on PCGS, and these early Florins are a true highlight, with some serious gem examples of key dates that are not just up the top pop, but are beautiful examples with fantastic eye appeal to boot. Other highlights of note include World coins and banknotes also feature as always, with quite a quantity of silver issues, some superb gold issues and the usual large selection of RAM, NPA, mint rolls, tokens, medals, bulk lots, sets, albums and so much more!

This auction presents a great buying opportunity, with a wide selection of high quality, collectable and fresh to market material.

Happy Collecting to all!

Terms And Conditions of Sale

Please read the following "Terms of Sale" carefully. These terms are applicable to all floor, postal and online bidders in this auction. Submission of bids in this Auction constitutes your full acceptance of these "Terms of Sale".

1. All Bids expressed either via Online or live in the saleroom shall remain valid until the fall of the gavel or auctioneer's call of "Sold". All sales are then final. Any bid(s) from any source as acknowledged and relied on by the auctioneer shall not be withdrawn. Bidding in this auction in any way confirms that the bidder personally guarantees all payments, and acknowledges and accepts the Terms and Conditions of sale as set out herein. The auctioneer has final discretion in all such matters. In case of a dispute, the lot(s) in question may be immediately resold. The auctioneer as represented here includes International Auction Galleries as an entity.

2. Auction payments must be made in full within 14 days of the sale date. No lots will be released until payment in full has been made. Payment may be made in Cash, by Personal Cheques (with proper identification, at the discretion of International Auction Galleries) by Bank Transfer or Major Credit Cards as stipulated. Successful Online/Postal bidders will be notified and issued an auction account. All such accounts must be fully finalised within 14 days of the sale date.

3. **A 22% buyer's premium will be added to the knock down price of each lot (includes GST where applicable).** A 1% surcharge will be added for all credit card payments.

4. Unless otherwise specifically stated by the auctioneer, each new bid shall be raised above the previous bid by such amount as is determined by the auctioneer during the course of the auction, and no party shall be allowed to retract his or her bid after acknowledgment by the auctioneer.

5. The auctioneer reserves the right(s) to refuse any bid, withdraw any goods from sale at any time, or disclose reserves or vendor information without having to state any reason.

6. At the fall of the hammer, (if required by the Auctioneer), the purchaser shall give his or her full name and address, and pay 25% of the purchase price deposit. In default, the lot(s) purchased may, at the auctioneer's discretion, immediately be reoffered and resold. All lots sold will remain the property of the owner/vendor until cleared payment is made in full. Only then will the title of ownership of the lots pass to the purchaser, irrespective of any terms or deferment of payment. Payment on approved dealer/trade accounts must be cleared and finalised within 28 days of sale.

7. Except as otherwise provided by state or federal law, no condition or warranty is given or implied by the auctioneer in respect of any lot offered for sale via auction. Lots are available for inspection prior to the commencement of the sale and it shall be presumed that they have been inspected and the purchaser accepts them as offered as is with all faults, on the basis of Caveat Emptor. All lots are inspected and offered in good faith to the best of our determination to be genuine as described (except where so noted), however no guarantee is undertaken with respect to refunds on this basis. No guarantee or right of refund is given on any third party graded items in respect to authenticity or grade. Any purchased item(s) sent for third party grading shall also void any right to return.

8. The auctioneer shall not be liable for any description or mis-description given on any of the goods presented here for sale in any way. Any statement as to the description of goods or grade is given as a statement of opinion only as represented to the auctioneer, and is not to be relied on as a representation of fact. No error or mis-description of any lot shall give cause for an invalidation of sale or an abatement of price (including any quantities expressed) and the auctioneer shall not be held responsible for any such error. The auctioneer gives no warranty or right of return in respect to grading of any lots (as expressed in clause 7). All images used are given as a guide only, and are not guaranteed to be an accurate representation.

9. No lots purchased by a bidder may be returned, including those lots where the bidder is acting as agent for another. There are no returns or refunds except for reason of lack of authenticity (as is stated in clause 7 and 8 above detailing liability). It is assumed that all intending bidders (including all postal and

internet bidders) have obtained their own satisfaction and/or done due diligence on all lots before submitting any bids in any manner, and all bids thusly submitted are subject to the full terms and conditions of sale. Items purchased and submitted to third party grading immediately voids any and all further rights of return. The auctioneer accepts no responsibility for any mistakes in any postal or phone bidding conducted. Late remittance of payments constitutes just cause for revocation of all return privileges. In the event that a bidder is acting as an agent for another party, and that agency has not been disclosed to the auctioneer in writing 24 hours before the sale date, then the bidder is deemed by the auctioneer to be the final buyer in all respects, and is fully responsible for all payments, fees and charges. **In no event may any lot(s) be returned after Twenty One (21) days from the date of the auction. All sales are then final.**

10. If any purchaser fails to comply with any of conditions of sale as outlined here or if any monies paid in any way given on settlement of account for any goods is dishonoured or unfulfilled, then any monies which the purchaser has paid to the auctioneer on account of the purchase shall then be forfeited absolutely to the vendor. The auctioneer acting as agent for the vendor is at liberty to re-sell the lot(s) in any manner and upon such terms and conditions as they may deem proper and/or to then sue the purchaser for any loss or resulting damages as set out below. Damages include all losses and expenses incurred by the vendor or the auctioneer as well as all damages which the vendor or the auctioneer may sustain resulting from any re-sale, storage, debt recovery, legal fees and/or court costs which shall then be recovered from the purchaser as liquidated damages. The auctioneer (acting on behalf of the vendor) in the event of such resale is also entitled to the expenses as set out below:

a) The total amount of any and all commissions and/or buyers premiums applicable or any other fees and commissions lost as a result of the purchaser defaulting on the purchase.

b) The full cost of advertising and all other expenses related to re-sale as deemed necessary, including recovery and legal fees, court costs, interest, storage costs and insurance charges.

c) Any differential in price from the initial sale price to the price achieved in re sale of the items(s).

11. **A service charge of 2% compound per month (or part thereof) will be added to overdue accounts (28 days after the date of Auction is the overdue period for all unpaid accounts).** In any event the title of any lots sold will not pass to the purchaser until the full amount of the purchasers auction account has been fully paid and remitted to the vendor, including any other service charges, storage or any other fees resulting from any late payments.

12. Estimates are given as a guide, and not given as starting points for bidding: Lots may sell for a price greater or less than these estimates. All prices are in Australian Dollars.

13. Postage and Insurance: If a purchaser declines to pay the mandatory insurance charge applied to their account for cover during shipping/postage then they shall assume all responsibility for that item(s). Any possible loss or damage to that item(s) shall then be the purchaser's responsibility.

14. By accepting these Terms and Conditions and/or by making any bid, the bidder guarantees they have the funds or ability to pay for any and all items bid on (including buyer's premiums, insurance, postage and other charges) within the stipulated timeframe as set out above in clause two as part of the Auction Terms and Conditions. Non-payment of accounts within the specified time will be handed to debt collection agencies as a requirement of settlement of the Trust Account.

15. All images, text and information supplied in this catalogue remain the property of International Auction Galleries, and may not be used or transmitted in any way without prior written permission. Note - Images may not be shown to scale.
