Welcome To IAGs Signature Sale 104

Welcome to IAG's September 2026 Signature auction. I'd like to start by thanking the over 100 vendors in this auction for their trust and support in allowing us to put together such a fantastic selection of rare, interesting, high grade and collectable lots. Having said that, it is a bitter-sweet thanks, as several of the collections represented are from old clients and friends who are no longer with us, which is incredibly sad, but also provides us an opportunity to celebrate them and their passions through the representations on offer across these important collections.

John Watson, a well-known, long time Melbourne dealer and collector was also a friend, someone whom I first met in the mid 1980's, and whose knowledge on his passion area of the scant-recorded Colonial issues was significant, much deeper than most would ever realise. I know he had been tapped by Greg McDonald to contribute to the Port Phillip section in his specialist book. John and I used to often end up in a friendly bidding war at various auction houses, not just over Colonial issues, but Kookaburra Pennies, error banknotes, mis-struck coins, Internment Camp coins and notes, patterns and restrikes - basically anything a bit odd and interesting! I spoke to John a few months ago after not seeing him for a few years at an ANDA Expo and we chatted about his collection. I remember he said "don't worry - you will get it all for auction one day". Sadly, that day was to come far too soon. I hope we have been able to do John's collection justice here, and that it helps you realise how special and rare many of these elusive issues are.

I also remember Norman Gadd from the ANDA coin fairs over the years; he would attend for the whole weekend, and was always walking around and chatting to everyone, as Norm dearly loved a chat, especially about banknotes. It was obvious it was something he loved doing, and his passion and knowledge can be seen clearly in his collection. Let's just say Norm also loved banknote pairs, and he hunted far and wide to collect as many issues as he could despite many issues only having a few in existence, and Norm was nothing but being relentless and patient! The highlights of his collection are to be found here in this auction, both in the collection and throughout various other areas, with another 15 boxes of more general items coming up over the next few auctions.

The balance of 2026 and 2027 looks to be very promising for IAG, with not only the balance of several of the collections highlighted in this Sale coming up for auction, but also other fantastic material we have already received! As usual, we will be travelling around and at all the major ANDA fairs, so please always feel free to come and see us or be in touch anytime if there is anything we can do to help or you would like a chat.

Some Sale 104 Auction Highlights and more...

The auction will be held over three evening sessions, and I must say- there are so many great lots across the sale, it's hard to narrow it down to just a few!

The John Watson collection is not only the Port Phillip lots, but encompasses many areas, including tokens, errors, world, GB and ancients, but is of course highlighted by the 11 varieties of Taylor Port Phillip Sixpences and Shillings in various metals, edge milling and portraits. This is without doubt the single most comprehensive offering ever seen, and is sure to excite many lovers of Colonial and Australian rarities. Likewise, the numerous patterns on offer from the early 20th century restrikes of Stokes to more modern representations of Gee present a fascinating look at this very rare and highly interesting series. There is also a large selection of Pre Decimal Proofs including many rare and earlier issues, a Kookaburra Penny, a number of Internment Camp issues; featuring some in superb high grade and rare error striking as a part of this large offering. A number of rare Tradesman tokens also feature, with many classic Colonial rarities headlined by an elusive Aboriginal Threepence and a very rare and highly sought after The Star Who Will it Be Centenary Florin in original case.

The Norman Gadd collection features some rare and key Pre Decimal and Decimal issues with the selection of starnotes breathtaking, with lovely fresh examples in high grade and many in pairs (the few that aren't either don't exist or are impossible to find). The George VI issues are impressive in their grade, with the Armitage-McFarlane 10 Shillings as good as any I have seen, whilst the pair of 5 Pound QE II stars is simply the finest known. Likewise, the Decimal issues showcase every starnote in pairs (with one a trio), of which the highlight is a superb 20 Dollar Phillips-Randall pair, again probably the finest known of only a few.

Not one but TWO superb 10 Pound Superscribes feature from an old collection that we have been gradually offering, and their rarity is only matched by their spectacular beauty. Conservatively estimated at \$30,000 each, this higher denomination is almost never seen in Superscribed issues with only a handful known

and this represents a unique opportunity to acquire higher grade early issues of significant importance.

Part II of the B.C.M. Collection features a number of high PCGS graded Threepence, Sixpence and Shillings, all high-end registry-listed coins. Similar to the Florins offered in Sale 103, they are not just PCGS numbers, but feature carefully curated Gem coins with lovely eye appeal and old toning, with many being right up amongst the top pop.

There is also an original old Colonial estate from the descendants of George Washington Walker, a prominent Colonial figure in Van Diemens Land, featuring some Tasmanian promissory notes and medals collected and curated by the family over hundreds of years! (See lots 782-794 for his bio and more information). Other noteworthy lots on offer include two 1913 Red Serial Collins-Allen low serial numbered Ten Shillings, a 10 Pound Cerutti-Collins 1918, whilst a Million Serial 10 Pound is the only such example we have ever offered.

The Stephen Dowsett collection of World banknotes (again Part I), is a true collectors dream, with many affordable, collector grade issues that should help fill these pesky gaps in many collections, with the Mafeking and Khartoum Siege issues a highlight. Other items to note include World and Ancient coins, GB, Proclamation, mis-strikes and errors, and a large selection of Pre Decimal and Decimal Australian coin and banknote issues. along with a quantity of gold and silver issues, mint issues and our usual large selection of RAM, NPA, mint rolls, medals, bulk lots, sets, albums and so much more!

This auction presents a fantastic buying opportunity, with a huge selection of high quality, rare, collectable and fresh to market material not seen in many years. We hope you will truly enjoy it!

Enjoy this fantastic auction!

The Norman Gadd Collection

Norman Gadd's (1936-2014) lifelong journey with numismatics began as a boy's curiosity and evolved into an enduring, full-blown passion. A familiar and respected presence within the collecting community, Norm frequented the Note Printing Australia (NPA) offices during their heyday, spending countless hours meticulously sorting through their note stores. He was an active member of the International Bank Note Society (IBNS) and a cherished patron of the Sydney Coin Fairs, where he would happily spend days immersed in conversation, sharing his enthusiasm and deep knowledge with fellow collectors and dealers.

Norman held a particular fascination for banknote pairs. Driven by a dedicated collector's instinct, he tirelessly scoured dealer stocks and auction catalogues to source and even reunite long-separated pairs in his pursuit to collate a complete collection of Australian banknote pairs - a hallmark of dedication that defines his assemblage.

It is a privilege to present the primary portion of his collection here. Through these notes, we celebrate Norman's legacy, share in the joy that currency collecting brought him, and hopefully pass the "collecting bug" on to a new generation of enthusiasts.

The John Watson Port Phillip Collection

If it is possible to define a person by what he or she collects, one theme that stands out in John Watson's collection is his unwavering dedication to his Australian heritage.

While acknowledging his British colonial connections, John has always focused on Australian interpretations of Colony and identity. His deep interest in early colonial monetary systems always had an Australian bias. This runs the gamut from early tradesmen tokens to Tasmanian promissory notes and early attempts to take advantage of Australia's gold rush, culminating in enterprises such as Taylor's Port Phillip tokens, many of which feature Australian themes and define Australia as distinctly unique on the numismatics world stage.

John expressed his intentions that IAG be responsible for cataloguing and offering his collection. When we first started to put everything together (and I will be first to acknowledge John's lack of organisation), it looked very random, but with Paul and Moana's guidance, we have been able to put together a curated selection of John's diverse collection.

I present this collection to you in the hopes that new joy is found through renewed ownership, and know with certainty that John very much lives on in the things he loved.

-Chih Chan

William Joseph Taylor (1802–1885), a Birmingham engraver, die-sinker and entrepreneur, was a major figure in 19th-century British and Australian numismatics. His most ambitious venture was the Kangaroo Office at Port Phillip (1853–1857), which was established to capitalise on the economic boom following Australia's 1851 gold discoveries.

When surging gold prices disrupted his primary business model, Taylor pivoted to developing pattern two-pence, three-pence, and four-pence pieces, followed by his celebrated Shilling and Sixpence patterns. Struck with both plain and milled edges, these denominations were executed in a wide array of metals, including gold, silver, copper, pewter, aluminum, and silver-plated tin. Around 1860, Taylor partnered with Charles Wiener to produce further varieties, as showcased by the two specimens offered here.

Today, Kangaroo Office issues rank among the pinnacle rarities of Australian numismatics - a testament to Taylor's entrepreneurial spirit and his attempts to forge a distinctly Australian currency. Given their immense prestige and scarcity, these pieces have inspired authorised restrikes and museum Electrotypes across generations, notably by Stokes (around 1917–18), the Melbourne Mint with re-worked dies (c. 1918), and the Royal Australian Mint in 1970. They were also a target of notorious counterfeiter David Gee, making the original examples all the more remarkable, and conversely making ownership of a historic piece of Colonial Australia affordable for every collector.

1398 1921 Kookaburra Pattern Penny Type 11. Bare-head portrait left by D. Richardson, struck at Melbourne Mint in cupro-nickel (3.86g). A nice example with some light toning and good fields with some underlying bloom, a couple of minor tone spots and some very slight wear on high points. Very rare. aU/UNC

Terms And Conditions of Sale

Please read the following "Terms of Sale" carefully. These terms are applicable to all floor, postal and online bidders in this auction. Submission of bids in this Auction constitutes your full acceptance of these "Terms of Sale".

1. All Bids expressed either via Online or live in the saleroom shall remain valid until the fall of the gavel or auctioneer's call of "Sold" and all sales are then considered as final. Bid(s) from any source as acknowledged by the auctioneer shall not be withdrawn once placed. Bidding in this auction in any way confirms that the bidder personally guarantees all payments, and acknowledges and accepts the Terms and Conditions of sale as set out herein. The auctioneer has final discretion in all such matters. In case of a dispute, the lot(s) in question may be immediately resold. The auctioneer as represented here includes International Auction Galleries as an entity.

2. Auction payments must be made in full within 14 days of the sale date. No lots will be released until payment in full has been made. Payment may be made by Bank Transfer, Visa or Mastercard, or in Cash. Successful bidders will be notified and issued an auction account inclusive of any applicable postage or insurance. All such accounts must then be fully finalised within 14 days of the sale date. Payment on approved dealer/trade accounts must be finalised within 28 days of sale.

3. A 22% buyer's premium will be added to the knock down price of each lot (includes applicable GST). A 1% surcharge will be added for credit card payments. Credit Card payments over \$250 will not be accepted for International buyers with payment to be made otherwise by direct debit.

4. Unless otherwise specifically stated by the auctioneer, each new bid shall be raised above the previous bid by such amount as is determined by the auctioneer during the course of the auction, and no party shall be allowed to retract his or her bid after acknowledgment by the auctioneer.

5. The auctioneer reserves the right(s) to refuse any bid, withdraw any goods from sale at any time, or to disclose reserves or vendor information without having to state any reason.

6. At the fall of the hammer (if required by the Auctioneer), the purchaser shall give his or her full name and address, and pay 25% of the purchase price deposit. In default, the lot(s) purchased may, at the auctioneer's discretion, immediately be reoffered and resold. All lots sold will remain the property of the vendor until payment is made in full. Only then will the title of ownership of the lots pass to the purchaser, irrespective of any terms or deferment of payment.

7. Except as otherwise provided by state or federal law, no condition or warranty is given or implied by the auctioneer in respect of any lot offered for sale via auction. Lots are available for inspection prior to the commencement of the sale and it shall be presumed that they have been inspected and the purchaser accepts them as offered as is with all faults, on the basis of Caveat Emptor. All lots are inspected and offered in good faith to the best of our determination to be genuine as described (except where so noted), however no guarantee is undertaken with respect to refunds on this basis. No guarantee or right of refund is given on any third party graded items in respect to authenticity or grade. Any purchased item(s) sent for third party grading shall also void any right to return.

8. The auctioneer shall not be liable for any description or mis-description given on any of the goods presented here for sale in any way. Any statement as to the description of goods or grade is given as a statement of opinion only as represented to the auctioneer, and is not to be relied on as a representation of fact. No error or mis-description of any lot shall give cause for an invalidation of sale or an abatement of price (including any quantities expressed) and the auctioneer shall not be held responsible for any such error. The auctioneer gives no warranty or right of return in respect to grading of any lots (as expressed in clause 7). All images used are given as a guide only, and are not guaranteed to be an accurate representation of the item on offer.

9. No lots purchased by a bidder may be returned, including those lots where the bidder is acting as agent for another. There are no returns or refunds except for reason of lack of authenticity (as is stated in clause 7 and 8 above detailing liability). It

is assumed that all intending bidders (including all postal and internet bidders) have obtained their own satisfaction and/or done due diligence on all lots before submitting any bids in any manner, and all bids thusly submitted are subject to the full terms and conditions of sale. Items purchased and submitted to third party grading immediately voids any and all further rights of return. The auctioneer accepts no responsibility for any mistakes in any postal or phone bidding conducted. Late remittance of payments constitutes just cause for revocation of all return privileges. In the event that a bidder is acting as an agent for another party, and that agency has not been disclosed to the auctioneer in writing 24 hours before the sale date, then the bidder is deemed by the auctioneer to be the final buyer in all respects, and is fully responsible for all payments, fees and charges. **In no event may any lot(s) be returned after Twenty One (21) days from the date of the auction. All sales are then considered final.**

10. If any purchaser fails to comply with any of conditions of sale as outlined here or if any monies paid in any way given on settlement of account for any goods is dishonoured or unfulfilled, then any monies which the purchaser has paid to the auctioneer on account of the purchase shall then be forfeited absolutely to the vendor. The auctioneer acting as agent for the vendor is at liberty to re-sell the lot(s) in any manner and upon such terms and conditions as they may deem proper and/or to then sue the purchaser for any loss or resulting damages as set out below. Damages include all losses and expenses incurred by the vendor or the auctioneer resulting from any re-sale, storage, insurance, debt recovery, legal fees and/or court costs which shall then be recovered from the purchaser as liquidated damages. The auctioneer (acting on behalf of the vendor) in the event of such resale is also entitled to the following expenses as set out below:

a) The total amount of any and all commissions and/or buyers premiums applicable or any other fees and commissions lost as a result of the purchaser defaulting on the purchase.

b) The full cost of advertising and all other expenses related to re-sale as deemed necessary, including recovery and legal fees, court costs, interest, storage costs and insurance charges.

c) Any differential in price from the initial sale price to the price achieved in re sale of the items(s).

11. A service charge of 2% compound per month (or part thereof) will be added to any overdue accounts (28 days after the date of Auction is the overdue period for all unpaid accounts). Title of any lots sold will not pass to the purchaser until the full amount of the purchaser's auction account has been paid in full and remitted to the vendor, including any other applicable service charges, storage, insurance or any other fees resulting from late payment of accounts.

12. Estimates are given as a guide, and not given as starting points for bidding: Lots may sell for a price greater or less than these estimates. All prices shown are in Australian Dollars.

13. Postage and Insurance: If a purchaser declines to pay the mandatory insurance charge applied to their account for cover during shipping/postage then they shall assume all responsibility for that item(s). Any possible loss or damage to that item(s) shall then be the purchaser's responsibility.

14. By accepting these Terms and Conditions and/or by making any bid, the bidder guarantees they have the funds or ability to pay for any and all items bid on (including buyer's premiums, insurance, postage and other charges) within the stipulated timeframe as set out above in clause two as part of the Auction Terms and Conditions. Non-payment of accounts within the specified time will be handed to debt collection agencies as a legal requirement in settlement of the Trust Account.

15. All images, text and information supplied in this catalogue remain the property of International Auction Galleries, and may not be used or transmitted in any way without prior written permission.

Note - Images may not be shown to scale.
