

IAG's Unbelievable Highlights in Signature Auction 98!

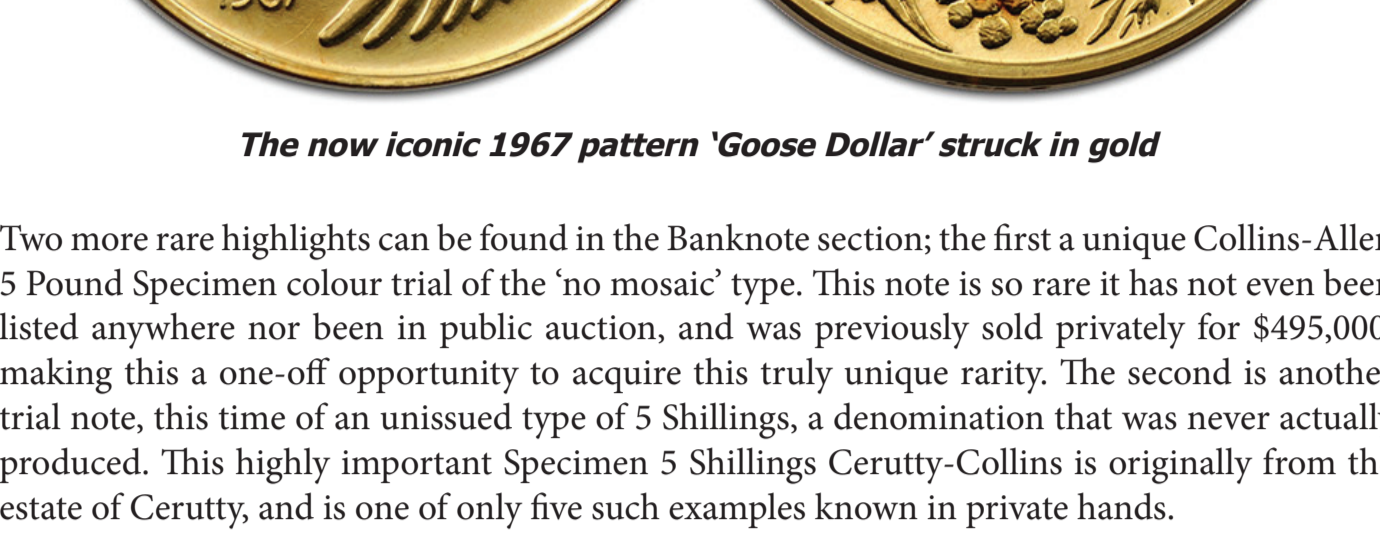

International Auction Galleries' upcoming auction - Signature Sale 98 in October - is set to become a landmark numismatic event! Over 2,100 lots comprise IAG's biggest ever sale, with some incredible individual highlights along with an amazing selection of material from a number of large collections being a major drawcard. Pre-sale estimates of almost 2 million highlight the breadth of quality material that is on offer in this major auction event.

The auction features a significant selection of covetable numismatic rarities, with a number sure to be in high demand. One of the key highlights is this superb proof 1897M Half Sovereign. Highlighted by a superb cameo frosted portrait with unmarked mirror fields and lovely soft proof bloom, this exceptionally rare, proof-only year is sure to be hotly contested as high end collectors rush to be one of the few to own a complete date set!

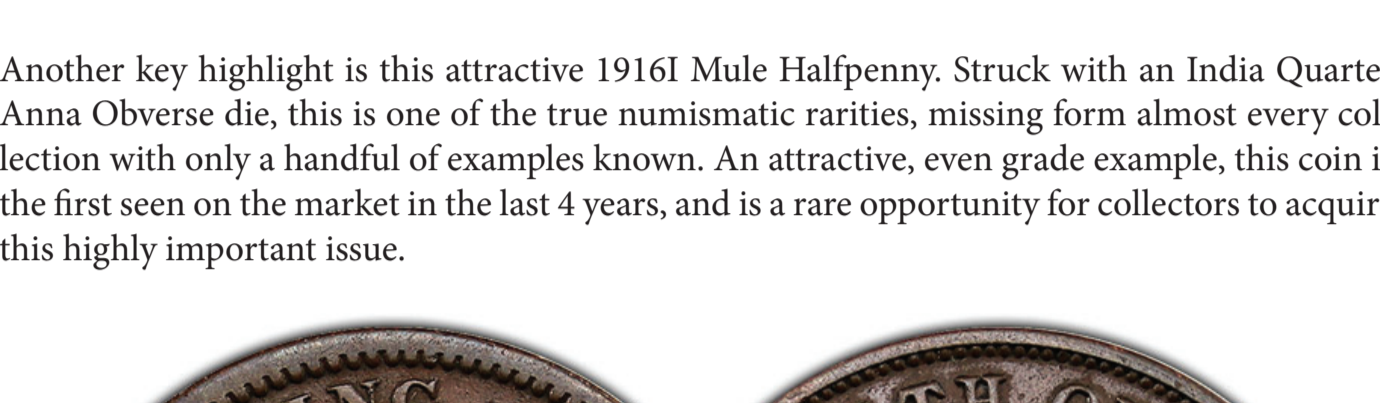

An exceptionally rare and superb proof-year only 1897M Half Sovereign

A gold 1967 Pattern 'Goose' Dollar - one of only 7 examples surviving - is also sure to set pulses racing, with this popular Pattern coin surging in value and demand in recent years to now becoming an iconic issue. This example is one of the nicest (if not THE nicest) of this coin seen, and estimated at \$28,000, could create a new benchmark price for this issue at auction!

Two more rare highlights can be found in the Banknote section; the first a unique Collins-Allen 5 Pound Specimen colour trial of the 'no mosaic' type. This note is so rare it has not even been listed anywhere nor been in public auction, and was previously sold privately for \$495,000, making this a one-off opportunity to acquire this truly unique rarity. The second is another trial note, this time of an unissued type of 5 Shillings, a denomination that was never actually produced. This highly important Specimen 5 Shillings Cerutti-Collins is originally from the estate of Cerutti, and is one of only five such examples known in private hands.

Another key highlight is this attractive 1916I Mule Halfpenny. Struck with an India Quarter Anna Obverse die, this is one of the true numismatic rarities, missing from almost every collection with only a handful of examples known. An attractive, even grade example, this coin is the first seen on the market in the last 4 years, and is a rare opportunity for collectors to acquire this highly important issue.
